BUSY Ability
where opportunities begin

SCHOOL LEAVERS

Disability Employment Support

Are you leaving school this year and a little unsure about the transition to work?

During your final year of high school, BUSY Ability Disability Employment Service (DES) can assist students with disability who are ready to start considering work.

BUSY Ability can assist school leavers to explore options, develop skills and identify opportunities to help ease the transition out of school and into work.

We can also support students from Year 11 who are considering an Australian School Based Apprenticeship or Traineeship.

WE CAN WORK TOGETHER WITH YOU TO:

- Identify your strengths
- Help you to overcome any issues that are making it difficult for you to look for work
- Explore options to find the right job
- Write a resume
- Prepare for job interviews
- Find work experience opportunities
- Match your skills to the needs of employers
- Achieve your employment goals

Once you have found a job we offer further support that you may need in the workplave including helping you learn your work tasks, settle in, resolve any concerns, and assess if any modifications are needed to assist you in your role.

Talk to us today about Disability Employment Support and how we can assist with your journey into employment.
