Currently I have five trainees doing tourism, four in hospitality, one in landscaping, one in retail. It's great to give them an opportunity for a qualification and to get a start in their career.

EMPLOYER SUPPORT

As an employer, working, training and supporting the growth of another person can be challenging for many reasons, including busy workloads or managing and understanding younger generations.

In-Training Support aims to address and solve these issues before they negatively affect your apprentice, your business and other employees. And we are just a phone call away when you need a mentor.

Mentors can assist you to manage your apprentice or trainee, providing support for on-the-job issues as well as personal issues that are affecting their work performance (eg financial, housing etc).

A mentor can free up your time to focus on the business, while making a positive impact on staff retention rates.

In-Training Support is at no cost to your business and we have supported hundreds of businesses just like yours, keeping their apprentice or trainee on track to successful completion of their qualification.
