IN-TRAINING SUPPORT...

TAILORED FOR SUCCESS

We recognised that every workplace is different so at BUSY At Work we offer In-Training Support for apprentices or trainees and for employers, individually tailoring these to your needs. We offer many support services to help both on and off the job.

1

A combination of face-to-face, over the phone or online engagements to address needs and concerns of the apprentice/trainee or the employer.

2

A tailored support plan may include mentoring for your apprentice to address and advise on any work performance issues, or personal issues affecting their performance.

3

Assistance with life issues including effective communication and relationship help, budgeting, paying bills and saving goals (e.g. saving for that new car!)

4

Advice and linkages to broader referral services (e.g. counselling and accommodation assistance) for apprentices or trainees experiencing personal issues or addictions.

EMPLOYER SUPPORT

As an employer, working, training and supporting the growth of another person can be challenging for many reasons, including busy workloads or managing and understanding younger generations. In-Training Support aims to address and solve these issues before they negatively affect your apprentice, your business and other employees. And we are just a phone call away when you need a mentor.

Mentors can assist you to manage your apprentice or trainee providing support for on-the-job issues as well as personal issues that are affecting their work performance (e.g. financial, housing etc.).

A mentor can free up your time to focus on the business, while making a positive impact on staff retention rates.

In-Training Support is at no cost to your business and we have supported hundreds of businesses just like yours, keeping their apprentice or trainee on track to successful completion of their qualification.

BUSY At Work's In-Training Support is provided at no cost and we've supported hundreds of businesses just like yours.
